PROFESSIONAL EXPERIENCE:

UNIVERSITY OF ILLINOIS COLLEGE OF LAW: PROFESSOR OF LAW, 1995 to present; Director of Clinical Education, 1995-2005; and Acting Director of Clinical Education 2010-2011.

Conflict Resolution Clinic and Food Justice Project: Students in the Conflict Resolution Clinic study the theory and practice of the skills associated with conflict resolution including effective interviewing and information development, mediation, negotiation, problem solving, advocacy and drafting. The Food Justice Project works with individuals, including small farmers and food entrepreneurs, and community groups to insure that safe, affordable, healthy, and local food is available to everyone.

Family Law: Family Law covers the fundamental doctrines and policies that are applicable to the legal issues associated with family relationships in the United States. A variety of teaching methods are used in this large enrollment course to engage in the students in developing an understanding of both the legal theory and professional application of that theory.

Professional Responsibility: The goal of this course was to introduce law students to the ethical issues that they will face as professionals, familiarize them with the law of lawyering, and to assist them in developing problem solving strategies for dealing with the issues they will face regardless of where they work as lawyers. I used a combination of teaching methodologies including lecturing, discussion, and simulation.

Evidence: The goal of this survey course was to introduce the students to the substantive law of evidence, some of the skills associated with applying the law, and the professional dilemmas associated with the use of evidence. The teaching methods included classroom discussion, lecture, role-play within the class and electronic simulations.

Family Violence: I have taught courses in Family Violence both as a legal seminar and as an interdisciplinary seminar. The courses explored the theoretical and practical aspects of the legal implications of family violence. I have also taught a course in Domestic Violence at the undergraduate level at the University of Illinois.

Clinic: I served as Director of Clinical Education from 1995-2006, and resumed that role again in 2010. I created the first Clinic at the University Of Illinois College Of Law. The goal of the clinic was to provide students with experiential learning opportunities to examine issues of professionalism, synthesize their law school courses, develop skills and provide service to unrepresented members of our community. The students practiced law under the supervision of faculty in a model law office that is located in the College of Law. This course included a classroom component, intensive supervision, and the practice of law. In order to develop the program, I was required to establish a curriculum, develop the necessary contacts within the community, university and the local bar association, design a physical space, arrange for all technological needs, hire and train faculty and hire support staff. I supervised the students' legal work in a number of areas of poverty law, including tenant/landlord law, divorce, domestic abuse, collections defense, and unemployment. In 2004, I launched the Employee Justice Clinic that focused on the legal problems of low income wage earners.

Introduction to the Civil Trial: This was a full semester course that was part of a special program for University of Illinois Freshman. The goal of this course was to provide students with sufficient background to be knowledgeable consumers of information about civil litigation.

Fact Investigation: This course was to teach students how to gather facts in order to create a case plan to solve legal problems. (Single semester offering, Fall, 1995).

CALIFORNIA WESTERN SCHOOL OF LAW: VISITING PROFESSOR OF LAW, 2008-2009.

Responsibilities: I assisted in the launch of the Skills Training for Ethical and Preventive Practice and career Satisfaction (STEPPS) Program which was a year - long course that synthesizes professional responsibility, preventive lawyering and problem solving, skills, research and writing, and career satisfaction. I taught the large class associated with the program, helped prepare the adjuncts to meet their responsibilities, and managed one of the simulated law firms. Prior to the launch, I helped develop the program and train the adjuncts who taught in the program.

WASHINGTON UNIVERSITY IN SAINT LOUIS SCHOOL OF LAW: VISITING PROFESSOR of Law. August 2002-May 2003. Taught a seminar on Legal Ethics for Public Interest Lawyers, Evidence, Civil Justice Clinic and Legal Professions.

INSTITUTE FOR ADVANCED LEGAL STUDIES, UNIVERSITY OF LONDON: INNS OF COURT FELLOWSHIP. January 1999-June 1999.

WASHBURN SCHOOL OF LAW: PROFESSOR OF LAW AND CLINICAL

DIRECTOR. July 1988 to May 1995, Associate Professor; promoted to Professor in July of 1995.

Evidence: Similar to the course at the University of Illinois.

Clinic: The Clinic program at Washburn was in existence when I arrived, and I was only responsible for new developments. The program was similar to the course at Illinois, and I had the same teaching and supervisory responsibilities.

Feminist Theory and Critical Race Theory Colloquium (team teaching, one semester each): These were experimental courses, the purpose of which was to introduce the students and the faculty to the basic literature in these two areas. I worked with a group of faculty to conceptualize and develop the colloquium and then taught in both series. I have integrated the theories and analysis into subsequent courses.

NORTHERN ILLINOIS UNIVERSITY COLLEGE OF LAW: ASSISTANT PROFESSOR OF LAW. August 1986 to June 1988.

Evidence: Similar to the course at the University of Illinois.

Pretrial Skills: The purpose of this course was to teach interviewing, counseling, negotiation, pleadings and pretrial discovery. I primarily used a simulation teaching method.

Externship: The purpose of this program was similar to the Clinic programs described above. However, external field supervisors whom I coordinated and trained monitored the student's' legal work. I was responsible for the classroom component of the course where the students developed skills, learned law and procedure and reflected on the work in which they were engaged. I developed this program, which required me to conceptualize a curriculum, establish meaningful placements and maintain the program.

WILLIAM MITCHELL COLLEGE OF LAW: CLINICAL PROFESSOR, Civil Litigation Clinic. August 1984 to August 1986.

Clinic: I supervised students in a Clinic program similar to those at the University of Illinois and Washburn.

SOUTHERN MINNESOTA REGIONAL LEGAL SERVICES: STAFF ATTORNEY. May 1980 to August 1984. Specialization: Family Law and the Legal Problems of the Elderly Poor.

MINNESOTA SUPREME COURT: LAW CLERK. August 1979 to May 1980.

RESEARCH AND SCHOLARLY ACTIVITY:

"Food Entrepreneurs and Food Safety Regulation" 7 J. of Food L. & Pol'y 35 (2011). Presented at Seattle University School of Law, February, 2011 and Clinical Law Review Works in Progress, NYU, October, 2010.

"Ethics, Internal Law School Clinics, and Training the Next Generation of Poverty Lawyers," 35 William Mitchell L. Rev. 1011 (2009), Presented May, 2008 at the AALS clinic conference; Clinical Law Review Works in progress, New York University Law School, October 2008; the New York Law School Clinical Scholarship Workshop, April 2009; Faculty Workshop, University of Iowa College of Law, May 2009.
